Pinnacol Assurance Group Plan

By combining the premium of The Arvada Chamber of Commerce members, a larger premium base is established allowing Pinnacol Assurance to reduce costs and return dividends to members based on loss histories. By joining the group, each member receives access to loss control resources and assistance in establishing safe working conditions. Group members then pay a premium based on their current individual record.

Each member's premium is based on their own individual loss experience. Member costs under the Pinnacol group plan will never be more than what they would be as a

non-participant. Dividends are distributed among the membership based on each member's loss experience. Members with a low loss ratio receive a greater portion of the dividend; those with high losses receive little or no portion of the dividend.
